## MOVE MADE IN RAILWAY MATTERS

C. N. R. Officials Here This Week. Select Site for Station Grounds. Road An Assured Fact

There has been considerable activity in railroad matters in Macleod for the past week. Things are certainly looking up. M. H. Macleod, general manager of the Canadian Northern, accompanied by his chief engineer, T. Turnbull, and right away man, G. W. Stovel, were here.

These gentlemen were met by representative business men of the town who certainly demonstrated that Macleod was all right as far as offering inducements for the advancement of the town was concerned.

The town upon the representation of the railway people that they would build their road in the immediate future, granted them three and one-half blocks of land for a station ground. This grant is from the lane north of 24th street to the Old Man's River, and thence east to the eastern boundary of the town, and west as far as Fifth avenue—three and one-half blocks in all.

A representative of the Chronicle interviewed General Manager Macleod regarding the general plans of the company as to their intentions in this section, and while this interview was not entirely satisfactory, there were some questions answered which indicated that the C. N. R. is in earnest as to the building into Macleod.

"Some of our people are skeptical, Mr. Macleod, as to real intentions of your road with reference to our town."

"They have no reason for being so," replied the general manager.

"Then it is a positive fact that the road will be built."

"I have no hesitancy in saying 'yes' to that question."

"Will the road be built this year? Well, that I can hardly say. I can say, however, that it is our intention to start on construction work this season."

"Will work commence at this end of the branch or the other?"

"Of course that is a detail we will have to decide upon later, but in all

probability operations will be going on along the entire route at the same time."

"Is it the intention of the C.N.R. to take over the M. C. M. charter and construct a line to the boundary over that route?"

To this question Mr. Macleod replied that no definite arrangements had yet been made, although negotiations were now on. This route takes in a rich section of country and with the opening of the reserved lands would undoubtedly make good profits for any road. It is just probable that the Canadian Northern will build that line, but just when is hard to say now.

"What do you think of the future of Macleod?"

"Oh, I have no reason at all for doubting a splendid growth here in the next few years. Macleod will certainly be a splendid business town. It is surrounded by a rich agricultural district and with its advantages of location it can hardly help building up on a most substantial basis."

Asked as to where the road would make an entrance into the town, Mr. Macleod replied that that would be a question for the engineering department to determine.

## LONGBOAT WINS AGAIN

Tommy Longboat, the Canadian long distance runner, defeated Alfred Shrubbs, the English champion middle distance runner, at Madison Square Garden, New York, on last Friday night. It will be remembered that this race was postponed from January 26th on account of one of Shrubbs' feet becoming inflamed through the rubbing of a tight shoe during his training work at Montclair, N. J. In the twentieth mile Shrubbs was eight laps or four-fifths of a mile ahead of Longboat, but at this juncture Longboat slowly but surely gained on his rival. A press dispatch says:

"The thousands of spectators were in a turmoil of great excitement. They yelled and cheered as the Indian slowly moved up to abreast of the Englishman, who was now but a scant lap ahead as the pair moved on in the second lap of the twenty-fifth mile."

Longboat ran without any seeming distress, while Shrubbs, unable to run any further, fell back into a walk.

Longboat quickly took the lead, and Shrubbs, unable to continue, collapsed on the track, leaving the triumphant Longboat to finish the race alone, a winner.

## BENEFIT AT SPRING POINT

A dance and basket social was held at Spring Point school house on January 29th in aid of the Macleod general hospital. The satisfactory sum of \$109 was realized for this good work and after the musicians were given \$10 and a grocery bill of \$8 paid, \$91 was given to the Ladies' Hospital Aid.

We noted that several habitual attendants at like functions were conspicuous by their absence; and although the hospital would have benefited by their attendance, socially their absence was not felt, since those who patronized the affair were given an opportunity of enjoying themselves.

The music was everything that could be desired, except music; although the management paid \$10 for it, we consider such novelties worth twice that amount.

We appreciated the kind assistance of several friends from Granum, which alone shows that it was not distance that made absentees; but that the admission was not the usual 25 cents. Much credit is due the board of the Spring Point school district for the free use of the school house, and also to the musicians who so kindly played the extra dances; we would also add that the success of this dance was entirely due to the noble manner in which the ladies responded in furnishing tempting and dainty baskets.

AN OBSERVER.

## CONSERVATIVE LEADERSHIP

Calgary, Feb. 9.—Discussing the coming Conservative convention, the News says A. J. Robertson will not be chosen leader. The choice lies between Maitland McCarthy, of Calgary and J. D. Hyndman of Edmonton. It is doubted whether Mr. McCarthy would give up the substance for the shadow.

## MUST STEP OUT

Ottawa, Feb. 10.—Following the report of Justice Cassels of the marine department, Commander Spain, Dominion wreck commissioner and J. J. Fraser, commissioner of lights, will step out of the government service.

In the case of other officials of the department affected by the report further action will be taken by the minister of marine in the near future.

## HIEBERT GIVES OPINION

Edmonton, Feb. 10.—"What is going to be the business of the Conservative convention to be held at Red Deer?" is a question that was put to Mr. Hiebert, member from Rosebud, and one of the two members of the Opposition in the legislature.

"Well," said Mr. Hiebert, thoughtfully, "just what is to be the business of the convention is hard to say. Of course it will endeavor to frame up a policy upon which the Opposition can hope to stand, but just what the policy will be cannot be determined at this time."

Mr. Hiebert talked freely on provincial affairs and amongst other things said:

"Now while I may have my own views regarding numerous acts of legislation, and while I have reserved the right and always will reserve the right to criticize, I must, in fairness, admit that the present work of the government as a whole is for the country's good. I do not know by what method the government will secure the railways we want and will reserve the right to criticize if the methods employed are not sound and the best available, but the fact that we are to be given roads is the important fact and be it far from me to hinder honest effort for the mere sake of opposing it."

## MASQUERADE BALL

One of the most enjoyable social events of the new year's functions was the masquerade ball given Thursday evening at the Town Hall. The "beauty and chivalry" of Macleod were present and when that is said, much is said. The Chronicle expresses regret that space is not at its command to record the names of those representing the various characters, accompanied by a description of the costumes. Suffice it to say the ball was the best of its kind ever given in Macleod. The costumes were handsome and varied, and too much credit cannot be given the committee in charge of the affair for the careful and conscientious manner in which every detail was carried out. To J. W. Jones & Co. who furnished most of the costumes credit is also due.

### TAXATION OF C. P. R. LANDS

Attorney-General Cross, who has been holding a series of meetings in Edmonton recently, where he comes into direct contact with his constituency, referred at one to a matter which is now being pushed forward by the Alberta government. It is the question of taxation of the C.P.R. lands lying along the main line of that road.

Already this province receives over \$60,000 yearly from taxation of the branch lines of the C.P.R. but in a test case made in Manitoba and appealed by that government to the supreme court at Ottawa it was decided that the big railway company's evasion of the tax could be maintained in law. The company's plea was then that the twenty-years exemption from taxes granted to the company in 1881 intended there should be exemption for twenty years after the company had received the patent for its lands. As this had only been secured by them a short time before they maintained the exemption should continue over another period of about twenty years.

The company was upheld in its claims by all the Canadian courts, and Manitoba abandoned its suit. But the Alberta government is not so easily turned from its belief that this road should pay taxes on the valuable land it holds and thus add many thousands of dollars yearly to the provincial treasury. A brief has been prepared under the supervision of the attorney-general, and suit will be brought against the company in a case similar to those conducted by the dominion government to collect taxes on land holdings. New contentions have been prepared, and the matter will be carried from court to court to the privy council of England, if necessary.

There are always some very skeptical people, even among the business men, of every community. We find it right here in Macleod. There never has been a time when things looked better, although some of us may be just a little hard up for cash at the moment. Keep a stiff upper lip. Things are coming our way.

Speeding of masquerading. What a lot of it is done every day in our business lives. 'Tis a pity of course, but it's here and we will have to put up with it until a change comes to effect the minds of the business men for a better condition of affairs. Until then the masquerade ball will go on and the only consolation will be, that at times there is sweet music and pleasant associations to relieve the mental strain in this strenuous business age.

PRICE	I keep a stock always on hand, endeavoring to deliver it at a moment's notice.	PRICE
<b>\$5.75</b>	I have a new pair of Canadian Standard scales for weighing my coal, accurate weights being given and ticket sent with load.	<b>\$5.25</b>
<b>DELIVERED</b>	If you try this coal I will guarantee that it will give you as much satisfaction as any coal now on the market.	<b>ON CAR</b>
<b>R. H. HILLIARD,</b> Office: Opposite Empire Hotel Phone 74		

## Get better cooking results from less fuel

THIS range was built to get more and steadier heat out of the fuel you burn.  
—to bake and roast perfectly.  
—to do all that the highest priced range will do and do it easily.

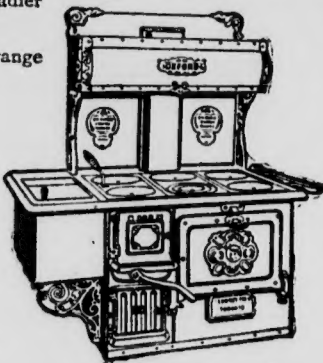

### Gurney-Oxford Chancellor

Is built of dead flat, patent levelled steel, asbestos lined. It has the duplex reversible grate—With this grate no coal can drop through until it is thoroughly burned—the teeth cut off the dead ashes from the bottom of the fire when the grate is operated, giving a quick, hot fire.

Note the big, deep oven, with balanced door that drops down and forms a firm shelf for basting, etc.

The detachable copper reservoir will keep you supplied with plenty of hot water.

The Gurney-Oxford Chancellor Range will cut down living expenses by saving fuel, food and labor. It bakes perfectly, roasts to a turn—is easily controlled and perfect in operation.

This is the range you should have in your kitchen—the range you should write us about to-day asking for full information.

PRICE \$40  
High Cleat \$10 extra  
Reservoir \$5.50 extra

## GURNEY-OXFORD

### Golden Nugget

No range was ever sold at so low a price that was so solidly built of dead flat, patent levelled steel, lined with asbestos and containing so many of the latest improvements in range construction.

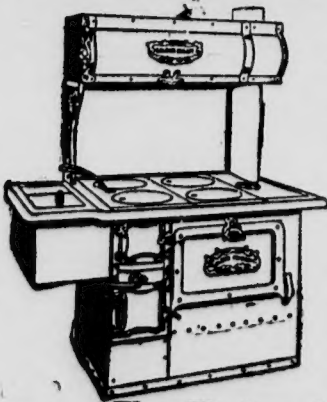

The new Gurney-Oxford reversible grate gets the best out of any coal and gives a quickly responding fire.

The oven gives an absolutely even temperature and is extra large.  
Let us tell you more about it.

PRICE \$23.00, High Cleat \$7.50 extra, reservoir \$5.00 extra

## COMMENTS

### HIAWATHA—LONGBOAT.

Fleet of foot was Hiawatha,  
He could shoot an arrow from him  
And run forward with such swift-  
ness

That the shaft would fall behind  
him.

Fleet of foot is also Longboat.  
Who can beat the English Alfred  
He, the great long distance won-  
der,

And can beat Signor Dorando  
From the land of macaroni,  
From the land of organ-grinders,  
From the land of sweet musicians,  
Who adjust piano-organs  
Just beneath our office window,  
And tear off the Merry Widow,  
Annie Laurie, Daisy Bell, and  
Then the tuneful intermezzo—  
From Mascagni's Rusticana—  
All of these and many others,  
Pleasing little nerve destroyers,  
Rendered by the gents with ear-  
rings

From the land of Sig Dorando.  
Fleet of foot was Mr. Longboat,  
Who could train on Scotch and  
soda.

(If there wasn't any soda  
He could train on Scotch exclu-  
sive),

And in looking o'er the records  
Made by Marathon performers,  
Made by English, Dutch, Italian,  
Made by Yankee, Greek and Ger-  
man

Made by T. Longboat's ancestors,  
We arrive at the conclusion,  
At the steadfast, strong conclusion,  
That the great long-distance run-  
ners

From the days of Hiawatha  
Down to those in his December,  
Hadn't anything on Longboat.

The grain convention at Calgary last week was a most important event. Probably the one far reaching subject discussed was the opening up of the grain trade to the Pacific coast. That this is the natural outlet for Alberta grain and food stuffs has long since been realized. The papers presented on this subject at the convention by the various speakers were able arguments in favor of this opening. That much pressure will be used to make this route an accomplished fact is now assured. This outlet for our grain would mean much to the farmers in the way of advanced prices, and much to the dealers in facilities for grain shipments.

Are you getting ready to get your share of the prosperity Macleod will enjoy in the near future? Now is the time to think about it."

The masquerade ball Thursday night spoke volumes for the chivalry and integrity of the men and women, girls and boys of Macleod. Masquerade balls as a rule are not just what they should be from a morality standpoint. In fact some people when they are masked apparently have the idea that they can do as they please, even though it go beyond the conventionalities. How foolish this is. A mask is a transparent affair after all. It is something like—weil how shall we express it—the ostrich pushing his head into the sand and thinking he has hidden himself—yes, that may be just the thought. Masquerade balls as a rule are just chuck full of naughty things, but this one seems to have been an exception, that is why we say it spoke volumes for the chivalry and integrity of the men and women, girls and boys, of Macleod. God grant that this condition may be strengthened as we progress in prosperity.

There must be a better adjustment of the taxation in Macleod. The present system is getting to be just a trifle burdensome. We propose giving a series of articles shortly which we trust will throw some light on this most important subject. These articles will not be given in the spirit of knocking, but with the end in view of bringing out ideas from our various business men as to the best system to be adopted. That Macleod must either advance or retrograde at this period of her history is a fact we cannot very well get over, and that the people will not stand for retrogression is taken for granted. Our stage in progression is just now at that point where it takes the brightest minds of the town to direct public affairs. The question of a just and equitable taxation is of vast importance at the present and for that reason we intend to thoroughly discuss the question in future issues.

Macleod is to have more railway facilities. Of that there is no doubt. If you have any money to spare or a little credit, get in on the ground floor and invest in real estate. It will pay. We give you this as a tip.

WE WONDER

If talk will build railroads, by  
the holy gas bag we are going to  
make some hummers. Word now  
comes from Edmonton that a road  
is to be built to the arctic circle.  
That it will have its terminus at  
Fort McMurray. The Edmonton  
people are evidently not content  
with making suburbs north to  
Athabaska landing. The Calgary  
Herald suggests that some of the  
enterprising Edmonton real estate  
men should come out with the an-  
nouncement of "choice residential  
and business lots for sale in Fort  
McMurray the prosperous Edmon-  
ton suburb."

BIRTHDAY OF LINCOLN

People throughout the entire  
civilized world did homage on the  
12th inst. to the memory of the  
great statesman Abraham Lincoln.
